Saga Vol. 2

Synopsis

Collecting the epic second storyline of the smash hit series Entertainment Weekly called "the kind of comic you get when truly talented superstar creators are given the freedom to produce their dream comic." Thanks to her star-crossed parents Marko and Alana, newborn baby Hazel has already survived lethal assassins, rampaging armies, and alien monstrosities, but in the cold vastness of outer space, the little girl encounters her family's greatest challenge yet: the grandparents. Collects *Saga* #7-12.

Customer Reviews

Saga is one of those series where you have no idea what the point is but you are so addicted to the story. Or maybe this is just how I feel. I really like the "Saga" graphic novels. I think the story is addicting and the illustrations are beautiful. The authors definitely know how to make their readers mad. I feel like I got upset with the story line so many times. This is Romeo and Juliet retelling thrown into a space drama. The story is very easy to get into. I really enjoy the fact that Hazel is telling the story and she even goes back to the parts about how her parents met and everything they have been through to get where they are

I'm really enjoying *Saga*. It reminds me of some of the stuff I used to read in *Heavy Metal* back in the day, but with a distinctly American feel to it. The characters and the universe they live in are quite unique and you really don't know what's going to happen next. This is because the universe is unveiled as we meet the characters and right when you think you have a grasp on this unique place, something or someone new is introduced. All of this happens with some engaging, often hilarious, dialog and beautiful, sometimes disturbing, artwork. It feels like they took *Fables* into a galaxy far, far away.

I completely loved this. I was enthralled the whole time learning about Hazel and the events that lead up to her creation. This world is so creative and imaginative that I'm just blown away. This is one of the best graphic-novels out, and my words won't do justice as to why I would recommend this to every living soul. The main theme in this book is the blind prejudice that all these souls have grown up believing in, because it has always been forced upon them. Everyone can take something out of this lesson, especially with all the hate this election season is bringing. Hazel being the narrator was such a genius move by Brian K. Vaughan. It is so expertly done, too. One minute you feel your heart being ripped out, the next Hazel is making you laugh out loud. Hazel's voice is perfect, and watching her journey is magical. This bind-up gives us flashbacks from the past constantly. It's done very well, and helps the reader get a way better understand at what Marko and Alana have at stake and why it's so important that love wins.

Arrived on time and in good condition. *Saga* is without a doubt one of the greatest stories ever written. Brian K. Vaughn is a master at writing gripping epic stories and it defiantly shows with *Saga*. The story is complemented wonderfully by Fiona Staples amazing artwork. This series is a must read for anybody who loves literature not just comicbooks.

This is a highly entertaining continuation of the *Saga* series. When Marko's grandparents show up and accidentally banish Marko and Alana's ghostly babysitter onto a different world it's up to Marco to travel there and get her back. Meanwhile Alana gets some quality time with her father in law. Marko's ex-fiance also enters the picture and ends up joining forces with The Will. We also get some backstory on Alana and Marko and how they meet and got involved. The story is fast-paced and the illustration and color are very well done. It's easy to follow and I am loving the characters and the action. This is a very adult graphic novel, so I would

recommend for mature (17+ readers) only. Overall this was a wonderful continuation of the Saga series and I can't wait to read the next one. I would recommend to adults who enjoy science fiction graphic novels with a lot of action and complex characters.

(>^__^)> No spoilers in this review! I enjoyed Volume 2 even more than Volume 1! I'm becoming a fan of The Will (one of the bounty hunters) more and more. I wouldn't mind a spin-off with him as the lead having adventures with his sidekick Lying Cat. Crossing fingers they don't get killed off in this series. The writing and artwork is consistently good. Quality character development; you can't help being engrossed with these characters lives. This volume is even more explicit than the first, which I dig. Definitely not content that would suit everyone's tastes. If you are conservative, easily offended, and don't like gore and raunchy material, steer clear! Like the first volume, there were several LOL moments for me. I'm quite sad that I'm cruising through all these volumes so quickly. I'm nearly finished with the 3rd and am deliberately taking a wee break. I don't want to finish all 4 volumes this fast. Volume 5 isn't coming out till October this year. I'm dreading the wait.

Its really unfair how good these are. And its pissing me off that there are only two more volumes left before I have to endure a sure-to-be long wait for the fifth. I could read a hundred volumes of this world. I am actually forcing myself to not start the third one this very second so that I can prolong the inevitable.

I liked this book. It was really fun to read, and it was a very good continuation of the series. I don't think it was as good as the first book, but it was overall a very good read. I read it in a very short amount of time (20-30 minutes, I think), and it was a very good thing to read when I was not really feeling like doing anything. The characters in this were utterly fantastic, as they were in the first volume. I had a very good time seeing who the characters are, and it was very easy to understand who everyone was since the artist made all of the characters look very diverse. I really loved seeing a ton of new characters, and seeing the set up that this book gave for the many future installments. This, however, was not what I was hoping for. I wanted an epic sequel filled to the brim with action and intrigue, but the story in this seemed very lacking. From the epicness that was the first book, I don't know exactly what I was hoping for, but this was not it. I wanted there to be a lot more story, and for things to actually happen, but it just didn't. That is not to say that I didn't like this

book, because I really did, but it was just not what I was hoping for.
