This is a great beginner book! There is a DVD included with just the hands playing the lessons on the keyboard too. While the DVD is not much for entertainment, it has completely held my five-year-old's interest because he is so eager to learn how to play keyboard. He watched the DVD, then with some guidance and help from mom, he was able to play the beginning lessons on his own. The colorful drawings and "song" names are also great for his interest level. He will sit and practice the pages on his own following a few minutes of adult-guided instruction. I would recommend this to an early learner who is interested in learning. I think we will progress beyond the level of this book fairly quickly, but that is a good thing if the basics in this book stick with my son.

Simple and easy to learn. I am using this book to teach my 3 and 6 year old daughters. They really enjoy playing the pieces in this book and the curriculum is easy to follow.

very easy to use

Awesome product, Awesome Price, Awesome Shipping. Easy to play and easy to teach another

person the piano. Super thanks for having the book available on line....easier than searching store to store by phone or car.

Excellent learning book for both the keyboard and starting to learn/read music. My daughter aged 7 and myself aged 39 are both starting to learn keyboard and it is perfect for both of us. Highly recommend this book for to a friend

This could be way simpler for the beginner player. Also the video is way to fast for a beginner.

It has been very helpful for my kid.

Bought this for my granddaughter who is beginning piano lessons. She really likes this book and finds it very helpful. Comes with a CD which is also helpful.
