Darwin And The Bible: The Cultural Confrontation

Synopsis

For courses in evolution, creationism or as a supplemental item in biology and/or biological anthropology courses. *Darwin and the Bible* helps readers to understand the nature, history and passions behind the debate over scientific and religious versions of creation and human origins. *Darwin and the Bible: The Cultural Confrontation* is about the history and nature of the disputes over human origins that arose with the publication of Charles Darwin's book, *Origin of Species* in 1859. The readings in the text provide the, historical, theological, social and political backgrounds of the debate. Rather than trying to demonstrate the truth of Darwinian evolution, this book seeks to help the reader understand why the debate over Darwin and the Bible remains as contentious as ever. The book seeks to examine why Darwin's theory of evolution appears threatening to some people, and, likewise, to help understand why some scientists often react with such emotion to challenges to their views. The contributors include biological scientists, social scientists, social historians, and proponents of the importance of God, faith, and religion in people's lives.

Book Information

Paperback: 224 pages

Publisher: Routledge; 1 edition (February 8, 2008)

Language: English

ISBN-10: 0205509533

ISBN-13: 978-0205509539

Product Dimensions: 6.2 x 0.6 x 9 inches

Shipping Weight: 2.4 ounces (View shipping rates and policies)

Customer Reviews

"I find the style extremely engaging and the material presented to be extremely interesting. This is the only book I've ever used that has prompted students to repeatedly comment on how much they're learning." • Thomas B. Stevenson, Ohio University, Zanesville "The book is unique in its area." • James Bearden, SUNY- Geneseo

Penguin Academics compact but complete "and always at a reasonable price!" "For more

than 60 years, instructors and their students have looked to Penguin trade paperbacks for state-of-the-art scholarship, accessibility, and fair prices.Â Longman, Penguinâ™s sister company, aims to meet those same expectations with textbooks in our series, Penguin Academics. Â Weâ™ve created the Penguin Academics series with ease of use in mindâ“the books are conveniently portable and highly readable, with engaging typefaces and interior designs.Â Concise yet thorough in their coverage of the basics, Penguin Academics titles are ideal for use either by themselves or in combination with other books.Â Related Penguin paperbacks can be found at the back of most Penguin Academic titles. Â In *Darwin and the Bible: The Cultural Confrontation*, authors Richard Robbins and Mark Cohen help readers understand the nature, history, and passions behind the debate between scientific and religious versions of creation and human origin.Â Rather than focusing solely on scientific backgrounds, the textâ™s chosen readings provide historical, theological, social, and political backgrounds as well. Â The readings are divided into three sets: The first addresses how scientists and theologians have tried to resolve the apparent contradictions between Darwin and the Bible. The second examines the different historical and cultural settings that defined the parameters of the debate, as well as their implications for religion and science on a global scale.Â The third describes how the debate came to center on education and explores the impacts on both teachers and students.Â Â What the reviewers are sayingâ | Â âœ find the style extremely engaging and the material presented to be extremely interesting.Â This is the only book lâ™ve ever used that has prompted students to repeatedly comment on how much theyâ™re learning.â • Thomas B. Stevenson, Ohio University, Zanesville Â Â âœThe book is unique in its area.â • James Bearden, SUNY- Geneseo Â
