Customer Reviews

I bought this books for my daughter, Jo Ellen Cole, who is a jewelry, gemstone and mineral appraiser. She comments:"Anna Miller's book on the techniques of professional appraisal practice has always been THE book to go to for answers on how to ethically perform the difficult job of appraising jewelry and gemstones. In this newest edition, updated sections on computers and searching the Internet guide the appraiser on how to use this important new source of information and how to utilize the computer in network and industry communications. There is more emphasis on the identification of gemstones and treatments and there is an expanded section on the pricing of older cuts of diamonds. A section on the Market Data Comparison approach helps guide the appraiser in this important aspect of appraising. Altogether, this book consistently delivers the information that is vital to creating a legal, binding appraisal report that will stand up to any

scrutiny."Lillian Cole, Twelfth Street Booksellers

I was planning to open a jewelry business and decided to purchase this. Great informative book for reference. Very useful for jewelry buyers and sellers.

Book is outdated and the photography could be more robust. Many photos are black and white or are pen and ink style drawings. Not what I expected.

This book answers a lot of questions that I have when buying antique jewelry and pearls. Extremely informative! A must have for all jewelry buyers.

Originally saw the first printing but this more updated version is fantastic! It has lots of photos, sketches and charts. Excellent references for jewelry buyers and designers.

Informative book

Great information.

This is a very thorough reference and I am sure I will be looking at it often. I purchased this for potential future issues.
