Customer Reviews

Such a great book for young girls. It reminds me of an updated version of "The Parent Trap". Very well written and the pictures go well with the story. I look forward to reading the rest of the series.

i really liked reading this book and finished it very quickly.i like all of katrinas books. they are fun and exciting and you just cant put them down.most of her books are cliff hangers, so if you like cliff hangers you will definetly like this book.i am waiting for a next book for julia jones teenage years, body swap, mind readers, and this one. i so excited for next books and especially this one.this book was about a girl, casey, and how a new girl Ali, who looks exactly like her, arrives at her school. shes jealous at first because Ali is getting all the attention, but then something happens and everything changes.this book also kinda reminds me of the movie parent trap and i really love that movie, so i really enjoyed this book.i would definetly recommend this book to girls age 9-12.

This book was amazing!Wow, Katrina is good. I love all her books, but this one is amazing. I would definitely suggest it to anyone who loves Katrina. She is amazing!Love this book, it is definitely 5 star worthy.

Twins: Swapped! is an AWESOME book that you can never find an identical book like this one.Casey Wrigley shows up at school one day and finds that there's a new girl named Ali Jackson that looks EXACTLY like her. Same brown hair, same body, and same facial features! It was almost like Ali was her identical twin, only a better version of Casey. On Ali's first day at school, she stole the heart of Jake Hanley, the cutest boy in the grade! She also got the highest marks in class, and is very popular. Casey and Ali finds out that they are actually twins in Ronnie's birthday party. Once Casey and Ali find out that they share the same birthday and that Ali was adopted when she was very young, this was MORE than a coincidence. Did Casey's mom keep a secret from her that she had a twin sister for all those years? Was Ali really her twin sister? Read the book to find out! ;)I rate this book FIVE STARS because this book is suspenseful and makes you wonder what's going to happen next. I can't wait to read the following books in the series! I recommend this book for girls who have been through the same situation as Casey and Ali did. Thank you for reading my review! :-S

I'd give this book 5 stars because it's thrilling in a deep sort of way and gives you a cliff hanger at the end so that you can't wait to read more. It also provides different points of view so that you can hear the story from both sides!

I got this book with my Kindle Unlimited account. I wanted to read it and see if I thought my 8 year old great-granddaughter would like to read this series. Even though I personally enjoyed the story I think it might be a tad too mature for my great-granddaughter. I thought it might be similar to the book, "Parent Trap" except instead of having 2 people who use to be married & produced these twins, it was instead about an unmarried mother who gave up one of the twins. Not sure how my granddaughter-in-law would feel about me buying this book for her young child. I will continue to read the rest of it myself because as I said, personally I like the story, just not to buy it for my young great-granddaughter.

This book was ok but very long like it was very slow. It did not get straight to the point I just didn't like but that my opinion you go read for your self but read it on kindle unlimited because if you have the same mind as me you wouldn't want to waste your money just saying .But as I say again it's only my opinion but it would be a good book for kids ages 7-9 it was just really boring to me that is my opinion

Why did u stop putting the first book of a series free why why why but anyway I love all your stories .Anyway I wish they were all free cause from the country I come from i'm not allowed to borrow for free and I can't buy cause I don't have a credit or debit card this leaves me sad cause I still wanna read ur books but can't.
