# Pistols Of The World

## **Synopsis**

From small bore to big bore, nearly every metallic cartridge pistol made since the late 1850s is listed here. Collectors receive the most complete, authoritative, and illustrated reference with more than 3,000 alphabetically categorized handgun listings that feature historical facts, model descriptions, caliber chamberings, manufacturers, and photos. More than 1,000 listings and 20 years of coverage were added since the previous edition. Specific pistols are easily found with the Gundex and the detailed table of contents. A glossary provides definitions and explanations for technical terms listed throughout the book. A special appendix offers explanations of the abbreviations often listed with ammunition.

## **Book Information**

Paperback: 416 pages

Publisher: Gun Digest Books; 4 edition (April 2004)

Language: English

ISBN-10: 0873494601

ISBN-13: 978-0873494601

Product Dimensions: 10.7 x 8.5 x 1 inches

Shipping Weight: 2.2 pounds

Average Customer Review: 4.2 out of 5 stars 10 customer reviews

Best Sellers Rank: #774,618 in Books (See Top 100 in Books) #192 in Books > Crafts, Hobbies & Home > Antiques & Collectibles > Firearms & Weapons > Firearms #481 in Books > Crafts, Hobbies & Home > Antiques & Collectibles > Antiques Care & Reference > Reference #540 in Books > Sports & Outdoors > Hunting & Fishing > Shooting

## **Customer Reviews**

A good book. An update of the First Edition, 1978, I also have, so it covers more recent models. It is a bit generic, but does cover the historical handguns well. It is a good basic reference book for enthusiasts.

I bought this as an update to the earlier edition which I have had for years. It adds some of the newer pistols and has more depth, but I suspect some of the guns included in the earlier release may have been dropped (Im not sure). This book is still the most complete reference book on pistols. Most others only feature a handful of handguns this one has nearly every model from nearly every manufacturer. In short it is THE reference book for pistols, I would not be without a copy.

Every serious pistol collector should have this book!

Good book.

I am a fan of Ian Hogg. His "Military Small Arms of the 20th Century" is the definitive work in the field. This book, however, falls far short of that standard. The text has none of Hogg's charm and lacks the details of development that provide insight into the weapons described. Additionally, the statistics we expect from Hogg are missing, leaving little more than catalog or manufacturer's PR brochure level material. The illustrations are totally inadequate. for example, several photos of commercial Colt 1911 are included, though they are nearly identical. In contrast the Walther P99 and P22 have none.

This book is great for the gun lover. It has a wealth of information. You will spend hours enjoying the information and photograph's. Buy this for someone who love's guns, you will see the biggest smile come to their face. It is one of the best. I did plenty of online research about gun books before purchasing this one. Thanks to [for their wide range of books to chose from](#). This one is a winner.

An interesting addition to my library of reference books .....

Good book if you're trying to get a little bit more knowledge on pistols this is a good book to start with.

it shows all the models of guns i have and alot more then i have ever hears of. good book
