## Customer Reviews

Awesome. Great story. Good characters. Very dark atmosphere. Personally I'm very happy with the series thus far. Sabrina is far better than Archie any day.

Love the series. Only up to #4. A breathtaking variation on the "cutesy" Sabrina story from the Archie series. One itty bitty thing... I'm a stickler for continuity and typos etc. One scene states a character walked into the woods with no shoes, yet the artwork shows this person a page later wearing shoes in the woods. Sorry! Was a proofreader for 11 years...

I was iffy after reading the first one, but this makes me more hopeful. It developed the characters better, and started moving the plot along. Gory more than chilling, it has promise.

Ce second tome annonce de belles confrontations et une horreur grandissante. Une lecture tout à fait divertissante en somme. Allez, je file télécharger le tome 3 :)

Thrilling and creepy! Truly a pleasure to read! The art work is really stunning. On the edge of my seat for the next book!

If you like horror revamps you'll love this, it's done well and doesn't take away from the original idea of Sabrina

A great sequel to the original, this series is a fantastic remake for a more mature audience bringing with it a sense of nostalgia for those seeking a darker story. Keeping with the original elements it makes a great read.

Perfect way to kill time while waiting for Episode 2. I'm just wondering why this one doesn't have a classic issue of Sabrina reprinted, which was promised in Chapter 1. Anyway, off to the next chapter. :D
