Customer Reviews

Great "tone" -- this person really has a gift for making the reader feel as if s/he were sitting right there, crocheting and talking about the patterns and stitches. The patterns are very cute. This author is an excellent designer, but more importantly, a true TEACHER! There are infinite numbers of

people out there who can produce some books with beautiful pictures, and charts, etc., but they lack the natural, engaging, way-to-impart-the-knowledge manner that this teacher has. All of the of patterns are exceedingly well-explained in (non-irritating) thought-out detail. One should already know the very basic skills -- there are no charts showing how to do the basics. Come knowing just the very beginning items and you will do well with this great instructor's presentations. I would say that this would be a wonderful place for a beginner to come for more encouragement and further crocheting adventures. Kudos (from this beginner)!

I only taught myself to crochet this summer. Needless to say, I'm a beginner. But there were projects in here that I could do. The patterns were well-written and easy to understand. The pictures were wonderful. I also loved the author. Her writing style was engaging and very friendly. Needless to say, I bought her other two books and am now following her blog. Just an added note, I read this on the Kindle app on my iPod and could easily follow the patterns on the small screen and the pictures showed up nicely. Worth the money.

Jaime does it again. Quick and easy projects, without the "beginner" look. This ebook includes patterns from her blog, and is well put together. I enjoyed her bloggy-conversational format, which she maintains throughout the book, and have bookmarked a few projects to start soon. :) I will definitely be following her blog, largely as a result of these 2 ebooks (fancy-schmancy being the other one I picked up) which I happened across one day as a "freebie". Well worth the 99c price tag.

Crochet Dynamite: Gifts For Your Besties by Jaime Eads MaraiaLove exploring new things to make for the charities I knit and crochet for. For the new crocheter there are many links to click on to get to the resources online for help. Easy bags to make and they even show you with pictures how to sew the seams together and put zippers in, etc. Pictures for all the items but they are not very bright. Also hats in various sizes.

Ok but most of the stuff is kind of clunky. Great instructions for putting in zippers though, really well written out. But what the heck is a magic circle? I never found that answer.

I became familiar with this independent crochet designer through her blog, Crochet Dynamite, and now am so excited that she has published two ebooks of her designs. I look forward to trying out the designs for myself and as gifts.

Easy to read, and excellent illustrations, with easy to follow instructions. Also includes great follow up links. I'll be looking for more from this author

This pattern book is well written with very clear pictures of how the item should look at certain steps along the way. The author writes it like she is a friend sitting down with you chatting about crochet! Who can resist that? She has motivated me to do a pattern that I would have skipped before because it has a zipper. Her instructions and pictures show you just how to do it. It doesn't look that scary and intimidating to me anymore :)
