101 Key Terms In Philosophy And Their Importance For Theology

Synopsis

Written by two philosophers and a theologian, this book provides easy access to key terms in philosophy and how they are understood and used in theology. The focused entries discuss what the terms have meant in classical and contemporary philosophy and then shift to what these philosophical understandings have meant in the history of Christian theology to the present day. The result is a unique volume that clearly shows the interplay of these disciplines and how theology has been influenced by the language and vocabulary of philosophy.

Customer Reviews

"To theological students I, as a philosopher, have sometimes said that what I hope for is not that they become philosophers but that they become sure-footed in philosophy. These 101 definitions will be a great aid to becoming surefooted in philosophy. But apart from such utility for theology students, I myself found it fun to read around in them. They are crisp, lucid, accurate, and superbly informed. An admirable achievement!"

Kelly James Clark is Professor of Philosophy at Calvin College in Grand Rapids, Michigan. Richard Lints is Andrew Mutch Distinguished Professor of Theology at Gordon-Conwell Theological Seminary in South Hamilton, Massachusetts. James K. A. Smith is Professor of Philosophy at Calvin College in Grand Rapids, Michigan.

This is a concise, helpful reference primer that's well-thought out and has wide and appropriate

topic coverage in the nexus between philosophy and theology, which is useful when you need a quick, clear, uncomplicated overview. The minor issue I have with my Kindle version is that (at the moment) the hot-links from the Contents page don't quite match the results: they land on a prior page to the subject I'm after. This ought not hinder anyone from buying this otherwise excellent little book.

Very helpful.

Being a teacher, this is SUCH a handy resource for gleaning the "essence" of philosophical movements, and how they compare to/contrast with/influenced Christian ideals & movements. It's scholarly, accurate, but completely accessible for even the philosophical novice like me. It won't insult your intelligence, either, if you're well-seasoned in all things philosophy. A great resource for students, too!

Required textbook. Helped to understand philosophy terms and gave an expanded history of the major philosophical influences. I would recommend this book to anyone in seminary.

I am working on a PhD in Christian Apologetics, and this book will ease my search for terms and ideas for my research papers. It is brief and concise in its presentation, and is a useful tool for quick reference. Serious seminarians as well as laymen will benefit from this tool for relating philosophical concepts to study of the Bible.

Super Resource

Very helpful book

Satisfied!
