## Customer Reviews

In private schools, the parents are responsible for buying the textbooks. So, where did I think of first to start my exhaustive and dreaded search? , of course! My expectation was that I would possibly find a book or two on my list in the price range I had hoped for. But to my delight, I found everything on with options for my budget. And when the school year is over, I know that I can sell the books back to easily and quickly with their convenient buyback feature. It's a win-win for parent and student.

I had to buy this book for my religion class. The price was great, compared to other prices I had seen this book on. I got a used one, and the quality and conditions of the book, was still pretty good and decent. The shipping time was as described, and the packaging in which it came was very well, protecting the book from any damages through the shipment. If you need this book or want it. Don't hesitate and get it from here. Great Price!

The book itself is good. Previous understanding in theology needed. This order, however, is terrible. Physics quality of the product is poor.

My daughter enjoyed the reading.

Better than I taught.

book in good condition
