Customer Reviews

Chris Rauwendaal, president of Rauwendaal Extrusion Engineering, Inc., (REE, Inc), has experience in a wide range of extrusion operations, including fiber spinning, film, sheet, tubing, medical tubing, pipe, and profile extrusion, co-extrusion, and reactive extrusion. Rauwendaal holds several patents in the field of polymer processing. He has worked on both practical and theoretical problems, such as screw-and-die design, trouble shooting, modeling and computer simulation, material analysis, and failure analysis. --This text refers to the Perfect Paperback edition.

I am a Sales Rep. for an Extrusion Manufacturer & Engineering Company. The book is very informative and written in a manner that anyone can understand. If you want to gain knowledge on the extrusion process this book is for you.

This book is a great reference book to use as a training tool for new operators or as a refresher for experienced operators. We use this as a foundation for training in our extrusion department.

I am an engineering manager and needed a basic brush up on extrusion, this book delivered as advertised. It covered all the fundamentals with enough depth to make it useful. The information was up to date and well worth the time and money.
