I only had a week to prepare for this test, so it helped me understand how the test is designed. Could have better test samples, some are confusing and on the kindle version it is hard to move between test answers and test. Honestly its a 4 star product, but I dropped an extra one due to the uselessness, commercial stance (pushing test prep materials) and poor formatting of the Toefl test itself. I consider myself fluent and my score reflects that, but there is no way to do well on this test unless you study how to do it with paid materials. I strongly believe a minute of conversation with any school official could, instead, give a better english proficiency insight and save me a couple hundred bucks.

Great quality and with the CD

I bought it for my niece! She improved a lot within 2 months! Thanks.

I've been a TOEFL Tutor for nearly 9 years and have 8 books published that are available on .com. This ETS book is vital to teaching and to any student who wants genuine TOEFL iBT practice. For more help, look up "The TOEFL Master's Guide".

It's just like the Princeton review text book. Personally I think the Princeton book was more helpful, but yeah this book was pretty good too.

The best authentic material you will have for this price. Great book and software!!DVD does not have the audios. No way to hear and compare your answers!

Currently studying!

if you are preparing for TOEFL test this book is the great source to prepare for the test.I wish there is a new book with volume3 because i already finished my volume2. definitely helpful on TOEFL prep.
