Happy happy

as a 'novice' beanie collector, this book has been the MOST helpful in learning to recognize all the beanies/teenies/et al; don't waste your money on any others, as I have... the pics alone are great; i would be totally lost without this guide!

Looking for a good book to give you information on your collection? I know this book sure helps me!

This guide with it's color-filled pictures, and accurate Ty prices is the perfect book to help you with your collection. It also has bonus ways on how to tell a counterfeit from an original. I almost bought a counterfeit Piness and Doby, if this guide didn't help me. It includes a time line of all Ty Beanie Baby events, plus information on how to tell which Beanie Baby will be expensive in a year. I bought one for (sadly) \$20 and it was \$40 two months later. And don't forget, this book is good for all different stages of Beanie collecting! If you're a collector, this Beanie book is the book for you! :-)

Ty Beanie Babies Summer 2000 Collector's Guide is a great way to inventory your collection whether you collect Beanie Babies, Buddies, Teenie Beanies, or *New* Beanie Kids. This book details with a picture of each baby and value by version tags. It also has a guide to distinguish which "hang tag" or "tush tag" you have. Whether you have a large collection or just getting started, I highly recommend this book for you.
