I received this book on 10/18/16 and I am very pleased. It is cut into 10 sections I haven’t full looked through all of it. It is impressive though. It is a good buy. If you love Arrow like I do you will enjoy this.

This book is amazingly designed. I really enjoyed the character tidbits, photos and biographies. My only real nit-pick is the glaring omission of Sin, who was a side-kick to Roy Harper and adoptive sister of Sara aka Canary. She played a pivotal role in Season 2, stopped Canary from killing Roy when he was on Mirakuru and during the uprising against Brick. It was Sin that alerted to Lance that the woman dressed as Canary during the uprising was NOT Sara, so I really don’t understand why she was not included. This would have received five stars if she had been listed. However, if you are an "Arrow" fan, you will definitely want to add this to your bookshelf.

A serious must have for any fan of the show it covers everything from allies foes friends family blueprints bios files on all the characters from the show also includes info on all the weapons used in the show as well this is a must-have for any fan of DC or fan of the show

This Dossier is great! A must have if you are an Arrow fan. Great detailed photos and details on all character’s, equipment and villains.

I really love this book. If I have one nitpick it’s the fact that Overwatch and Spartan weren’t included in the Vigilantes/Mask/Heroes section.

Fans of the show this would be a nice add to your Arrow collection. It gives you an insight of Oliver from season 1 of who he can and cannot trust. It’s really interesting to look through the book.

If you are a fan of CW’s "ARROW", then you’ll really enjoy this book. Very well laid out.

Love this! It is great for my collection
