Echo Dot: A Complete User Guide (2017 Edition)

Synopsis

Amazon's Echo Dot is an amazing device. It features Alexa, Amazon's voice-controlled personal assistant, who can read you the news, play you music, and even order you a pizza. The Echo Dot has just about everything - except for a user's guide. No problem: that's what this book is for. This comprehensive manual introduces you to your all-new Echo Dot (2nd Generation), helps you set it up, and gives you all the tips you need to get the absolute most out of your Alexa device. Written by Stephen Lovely of Cordcutting.com, *Echo Dot: A Complete User Guide (2017 Edition)* is smart, accessible, and complete. You'll learn: What the Echo Dot can do for you - and how it compares to other Alexa products How to set up your Echo Dot How to use tasks and skills to control everything from your calendar to your smart home How to troubleshoot problems and solve common issues The book includes a bonus chapter of more than 200 hand-picked Easter eggs (funny things to ask Alexa). Chapters: Why get a Dot? Setting up your Echo Dot Using Alexa Alexa skills Music and audiobooks Shopping with Alexa Alexa and your smart home Using more than one Echo Dot Integrating Echo Dot with IFTTT for next-level control Advanced settings Troubleshooting Just for fun - our Easter eggs bonus chapter

Customer Reviews

This is a good beginner's guide for someone just starting with the Dot, or someone who is technologically hesitant. I'd have liked to see more tips in regards to IFTTT, but I understand the author wanting to avoid going down that rabbit hole.

This book is best for the beginner to the world of Echo Dot. Easy to read and understand, but in my opinion lacks some key details, or at least following the writer's directions I was unable to get Alexa to skip to a page or chapter of a Kindle book. Alexa can read Kindle books, which is fantastic, but I still can't get her to go to the page I left off. writer was unable to walk me through this process. Whether it is the programmer's fault or poor directions from the writer this is why I gave this book the score I gave. Other than this I do recommend this book to the beginner in order to get started and have a better understanding of just what Alexa can do.

very few worthwhile suggestions to us my dot.

Great book but much of the info published is found on the internet.

I enjoyed reading the eBook. There were some areas that I was familiar with however it was good to get a n all around view.

Many things about Echo I didn't realize.

Manuals are rarely easy to read, but this one was very enjoyable - packed with useful information and even humor.

I have used one at my friends house--love it--and, I would love it here "if" I can get it working-I suspect it's my wifi cause everything else is downloaded and it's ready to go
