The popularity of Duct tape crafts in the last few years, has increased immensely. There are also Duct Tape Craft Clubs in various local schools etc. As stated above, this craze has prompted manufacturers to develop new and growing patterns and colors. Uses of duct tapes range from making handicraft products and personal items, to fixing plastic chairs, broken equipment in various homes and industries, broken fishing rods. Another popular use of duct tape is to make duct tape fabric. This is done by using the sticky sides of 2 sticky sides / pieces of duct tapes joined together and cutting them into various sizes and shapes thereby making different handicraft products. You can use duct tapes of different colors to make the crafts you finally come up with look vibrant. Use stronger paper for support. Reinforce your duct tape crafts with hard paper to make them stronger and durable. Using Duct tape alone can lead to formation of creases on your finished work. Hard paper helps prevent unnecessary folding that lead to formation of creases. You have to figure out the designs yourself. The crafts are very cute. If you have experience it will be really good.

This book was horrible most of the items were junk and some were already something you could find on YouTube.
