The Care And Feeding Of Cast Iron Cookware

Synopsis

A simple guide telling you all you need to know about how to restore, and maintain cast iron cookware. Written by someone that has had the passion for cast iron for 25+ years, and has restored hundreds of pots, pans, and skillets. This guide will cover removing rust, grime as well as cover the basics of seasoning. Several methods are outlined, so everyone can find a method that will work for them.

Customer Reviews

I have a love-hate relationship with cast iron. For cooking? Boy does it function. NOTHING beats that heft. But some of the best pieces are to be found in old barns, beneath piles of rusty junk at garage sales. Needless to say: rusty & filthy & unappetizing. Also a big challenge to clean up. So I enjoyed the tips and info in this book, and presently have a Griswold soaking outside, in hopes of rehabbing it.... Oh, and if the lights go out, and you have a BBQ grill? These are the best....

too basic. can get more info from google. I was disappointed to pay for this and realize just how little

information is in it. Don't waste the money

I am a cast iron, fanatic. The older, the better. Learn different ways to strip, clean, preseason cast iron. Thanks

Very basic and hardly shed new light on anything not found on a Youtube.com video.

Pretty basic and common knowledge but I enjoyed it.

Not as informative as I would have hoped for

Great for a genesis, but, as with cast iron vessels, more is better. Another 100pages would be a good start.

this gives you a quick overview as to what and how to season your cookware. If your new to cast Iron this is a very good book.
