Customer Reviews

This book contains 60 beautiful baby knitting patterns. Like its predecessor "60 Quick Baby Knits", the patterns are beautiful and use Cascade 220 Superwash sport yarn. Although it says that the projects are for Newborns to Tots, only two patterns are written for size 24 months.

Approximately 25 patterns are for size 12 months and smaller and 25 patterns are written up to size 18 months. I was a little disappointed because I thought "tots" meant that several of the patterns would go to at least 24 months.

I've been a knitter for over 40 years and would not recommend this book. Only a few of the patterns are correct.

great book

This charming book has 60 patterns for baby that include hats, blankets, sweaters, socks, sleep sacks, vests and dresses. The patterns, for the most part, are charming. Instructions rarely go over size 18 months and many are for smaller sizes. The Simple Sleep Sack is lovely with trims in either blue or pink with the body in a nice gray. The Lace Panel Pullover in peach is chic and modern looking. I love Tie-Front Cardigan in a magenta colorway. It has a nice textured pattern and a cute I-Cord tie at the neck. The Lace Blanket in a light peach hue is spectacular. It is just the perfect throw for baby. The Hooded Sleep Sack is original and adorable. It is hooded and has buttons down the sides. I would not pass over the Cabled Cardi and Hat. It is an aran set in a light green and would look so good on a little one. The Staggered Blue Blanket in a bright blue is textured and a perfect cover-up for baby. Overall, this book has MANY patterns that I want to knit. I don't even know where to start. All of the patterns are made with 220 Superwash Sport from Cascade Yarns and utilize size 4 - 6 needles, U.S. I highly recommend this book for its variety and choices.

Got to get going on these projects.

This book and its predecessor are absolutely wonderful. The designs are cute and stylish and classic and leave a lot of room for your own interpretation and color schemes. I just received this book so have not gotten the chance to try out a pattern but my aunt has knit quite a few things from here for my twins and they are just perfect. The patterns, according to her, are logical and easy to follow and true-to-size. The photography overall is great, however, there are a few items that I would have liked to see modeled to get the idea of how it actually fits the baby. Other than that I have nothing but good things to say about this series. I've ordered and returned other baby knitting books but this one will definitely stay in my permanent collection.

I Love this pattern book! My favorite baby knit book! Liked it so much I bought the other two books the first and 60 quick knit baby essentials!

This book is a step up in all ways from the first "60 Quick Baby Knits" book, but for knitters wishing to keep moving up in expertise and experience, this is an entirely good thing. The complexity of the projects, materials needed, age of the recipients (many more toddler patterns than the previous book), etc, has increased, but that means intermediate knitters will just have to step up their game.

Highly recommend as an addition to the "60 Quick Knits" series for fans like me.
