Synopsis

Between one day and the next, inserting itself into reality at midnight, sits the Dark Hour. Few know about this special time that separates humans from the dangerous creatures known as Shadows. Customer Reviews

Bought the Persona 3 manga on a whim and I really enjoyed it. The only thing that I was somewhat disappointed about was how short it was, but it was still a good quality manga nonetheless. This manga covers the opening act of the game and ends on the rooftop scene.

Got this for a friend and he absolutely loves it!

Great gift for an anime fan

Nice art work. High quality manga

Came right on time and in perfect condition. Highly recommend getting this if you're a fan of Persona 4! The art is amazing and the story is true to the game's story.

This manga is one of the most solid and creative video game adaptations I have read. Most game to manga adaptations are just very simple, literal retellings of the game. But Sogabe has fun with non-linear storytelling and very creative, striking visuals. The art flows very well, the character interactions are fun, and as a long-time fan, I can recommend this 100% for fans of the series. People who have not played persona 3 may also enjoy this, but will possibly find themselves confused

Great read for new persona fans or diehard old ones. Has a lot of scenes that were not in the game or anime. Highly recommended!
