This is a great CD. These instruction manuals are very old - from the 1800's and early 1900's and they are very interesting. There are about 50 PDF manuals included - most are 30 to 50 pages long. They are very easy to work with and print out portions for a hardcopy to use while crafting. This is a great collection. Plus, it was shipped to me quickly.

Some of the pages of the books on the cd are fuzzy and unreadable. Considering the many varied books that are included, it is still worth the \$ spent for this cd.

have not checked it yet but i am sure i will love it

I have not made anything on this cd, I have scanned it and love the patterns I saw! It saved me a bunch of money!! Love it!

It is a wonderful addition to my collection of old needle work books

I like these saves room on my book shelf

I got what I expected.Thanks

I would give this zero stars. It came today (21 March). It will not play on my laptop, my PC, my DVD player for the television. If I still had the wrapping paper, I would call the seller and try to get my money back and send this DVD back. What a waste.
