Deadpool is one of my favorite mutants, so I wanted to get a collection of comics that did the character justice. I'm usually not interested in newer comics because they are always very outlandish and different from the original Marvel idea but this collection (I think) stuck to the original authentic Deadpool and didn't deviate much. Love the writer of this series, he really knows how to infuse the right amount of comedy, badass-ness, and action into a Deadpool comic. Great illustration, very vivid and colorful. It was way cheaper to buy this book on as opposed to Barnes and Noble or an actual comic book store because those venues sell it by the original publication

price of \$34.99 which I thought was a bit much. It was also cheaper to buy this collection than to go out and buy all of the individual comic books from this series because those were about \$14.99 each. You get all twelve comic books plus some extra comics from other series by the author for around \$25. WORTH IT.

One of my top 5 (not so hero) superheroes. Great story, it all flows very well. It shipped quickly and arrived quickly.

My first time reading deadpool comic and it turned out great, but i still need to finish the whole book; however, it has a ton of jokes which are great for any fan of deadpool.

Funny and violent. What more can you ask for? It's Deadpool.

Loved the movie so i decided to get the comic to read more about him. This vol did not disappoint.

Great collection for someone who was unfamiliar with Deadpool before the movie.

Not a very good story, it's all over the place and confusing at times. Tries to be funny but fails miserably.

Great
