Customer Reviews

Way off the mark on Johnny Lightning and it's no excuse that the book is 18 years old. You would still expect pricing to be proportionally correct which it isn't. The only good reference for JL's is Tomarts and it's 16 years old. O'brien's Toys Cars and Trucks isn't bad either for JL's but only dedicates 2 pages. I gave it two stars due to the good color pictures and the price I paid: \$2.54.

The ONLY guide for Johnny Lightning and Matchbox giving a good template for pricing. Great addition to any collectors library.

It's got a lot of information in it. Not the best, but not the worst either. I would recommend it if are seriously collecting them.

a-ok

This book tried to cover alot of the major Die-cast cars, Matchbox, Johnny Lightings etc., but the Early Hot Wheel info was what I was most into and that was fun and I learned alot of stuff I never

would have known otherwise. The beginners tips are a must for collectors experienced and new. The variations are countless on these cars and would be impossible to list all of them, however if you collect only the 'Redline Years' of hot wheels it's a pleasure to see these cars and it's a good companion to other books you may have. Photos of rare color combo's and proto-types are cool. For the hard core Redline collectors only.

Hot Cars is a feast for the eyes. The photography is excellent, the cars pictured are rare and hard-to-find variations and the price guide is much more accurate than other books on the market. It also includes tips on collecting die-cast cars and is a good general book about die-cast. This book, combined with others on the market, will serve collectors well.

Very Easy to use. Very Clearly written. The only thing I didn't care for in this book is that to some degree it only covers the most popular cars. It doesn't give information on the amount produced. It also doesn't give any information on the amount of variations of newer cars. Clearly this is not written for the advanced collector

The Hot Wheels listings did not include variations nor did it include limited edition cars. The Match Box listings did not list the names of the series of cars. The Johnny Lightning section is very limited. Pictures were very limited in all sections.
