Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Unlike the other reviewer (L Booher) I received the correct volume, with full piano/vocal/chords music. This is a great selection of 62 classics from the sixties. If you own other volumes in the *old* Decade Series, there's almost no overlap - "Puppy Love" appears in "Songs of the 60's (2nd ed.)" but I think that's all, so you're getting 61 new songs. It probably overlaps with the New Decade Series though (I don't own the 60s volume of that series yet).Here's the full song list:Abraham, Martin and JohnAlfieAll My LovingAnd I Love HerBaby Elephant WalkBaby I Need Your Lovin'Baby,

The piano music is "easy piano" and the guitar chords match - the song coverage is OK, but I did not see in the description that the piano arrangements are easy piano and the chords are generally simple, not musically interesting. You should be able to find several better collections.

i have other sixties books but not this one. this completes the cycle off great books.
