This collection of art songs in English, German, French, Spanish and Italian is excellent. I am an adult mezzo-soprano and this edition of Art Song Anthology/Low Voice seems to fit me nicely. I don't normally use the cds that come with music books. Usually the tempo of the recording is off what I would like to sing, too slow or too fast or just too rigid. These cds are equipped with software to adjust the tempo, not that I plan to use that, but other buyers might find this helpful. However, I do plan to use the diction lessons. I think they will be of great benefit to me as I work on these pieces.

They have recorded native speakers reciting the words with spacing in between the phrases so you can repeat their pronunciation. Very practical. The collection itself seems quite good also and includes extensive notes on each composer and piece.

My HS singers who are just beginning to explore the world of Art Song love this collections! Nice variety in the literature--several languages & style periods. The diction lessons are exemplary for beginners! A good value for the money for all that is included. You'll love this!

Came with CDs and was in great condition

Why is there no song list for this book? Why can't put up a title list of songs for this multi-lingual book? This would be a minimum. But they try to sell it without the basic information needed by any, yes any, buyer. So tiresome. Barry.
