Silver Coin Pricing Guide, 1800-2000: A Reference For Buying And Selling 19th And 20th Century World Coins On EBay, Websites And At Coin Shows

Synopsis

This is a guide for people who buy and sell silver coinsâ ”on eBay, on other Internet websites, at coin shows or coin stores, or elsewhere. It is intended for those who buy or sell coins based on their investment value, rather than their design or scarcity. This book displays the bullion value of silver coins for every world nation and year of origin between 1800 and 2000. An alphabetical listings of countries and denominations (and sometimes a simple addition), shows the base value of any common silver coin. This is vital information, because many current coin guides have not recalculated bullion values, and continue to estimate coin value based on silver prices from a time when it was worth only a fraction of today's value.

Book Information

Paperback: 100 pages

Publisher: CreateSpace Independent Publishing Platform (September 9, 2011)

Customer Reviews

Donald O. Case is coin expert with over 40 years of experience in the buying and selling of U.S., Canadian and world coins. As a professor in major American research universities he published scholarly articles on coin collecting and the counterfeiting of coins, as well as on many other topics. He currently lives in the United States.

Was as listed and arrived quickly.

great

Despite some conversion errors here and there, this is a useful reference for silver coin collectors. It

is a large format book, and is very reasonably priced. I can recommend it for those who are interested.

I use this book all the time. Great buy. Sipped fast, no problems.

Not the book I expected but good

A good book listing world coins. The prices is only a guide with respect on what you would expect to price it for sale or to buy. Nice to have if you are a serious collector.

It ok

Useless
