Letter 44 Vol. 1: Escape Velocity (Letter 44 Boxset)

Synopsis

On Inauguration Day, newly elected President Stephen Blades hoped to tackle the most critical issues facing the nation: war, the economy, and a failing health care system. But in a letter penned by the outgoing President, Blades learns the truth that redefines "critical": seven years ago, NASA discovered alien presence in the asteroid belt, and kept it a secret from the world. A stealth mission crewed by nine astronauts was sent to make contact, and they're getting close - assuming they survive the long journey to reach their destination. Today, President-elect Blades has become the most powerful man on the planet. This planet.Collects Letter 44 #1-6

Customer Reviews

I'm in my late 30's and just getting into graphic novels. I started with The Secret Service before Kingsmen movie was released and really enjoyed it. Letter 44 is just as awesome. The art and color and story are incredible. Can't wait for volume 2 to be released soon.

Fantastic concept and great art - can't wait to see where the author takes this story.

Heard about this series from the local comic book store. They didn't have issue #1 so I ended up just purchasing this volume instead. I am not a huge reader but this book had me reading straight through. I thought it was great and very well written. Probably one of my favorite series right now. I already have Volume 2 pre ordered! The book itself is very well made and the cover is very pretty. It has a nice metallic look to it.

The first volume of "Escape Velocity" feels a lot like setup for the next volume, although a lot does happen here. There seems to be a little too much focus on the previous President, and I'm not sure the conspiracy theme is even necessary to really drive the book forward -- it's almost a little cliché -- but overall it's solid "what if" work that will leave you wanting more.

This graphic novel is so good. I love the concept and the writing. Charles Soule is not only a great comic writer, he's also a lawyer. Kudos for coming up with a compelling and very cool story. I'm reading them all!

So refreshing to read something that captures you in a way that hasn't been done since I read my first science fiction book. The dual story line was not cumbersome either, the first time I wasn't annoyed to break away from the main story to the secondary. Bravo !

If in some parallel universe Arthur C. Clarke, Neil Gaiman and Brian K. Vaughn collaborated on a comic book series; I'd imagine it would turn out as something similar to Letter 44. Definitely recommend.

Anyone that enjoys quality story and artwork in the Sci-fi vein will not be disappointed in this. I devoured vol. 1-2 and pre-ordered 3!
