## **Customer Reviews**

Actually has the solutions and how to do the problems! Very helpful for my students.

This is an excellent reviewer for the ACT test. My particular interest is in its reading comprehension and essay writing sections which I found well presented, in various difficulties, with clear explanations and good focus recommendations. The material is more challenging than in some other reviewers but this aspect is a plus for the more serious student.

Definitely helped with my daughters ACT tutoring !

Met expectations for the most part, but realize that 2 of the 6 practice tests are online

Extremely helpful for the ACT test! Improves score!

good reference

I loved it! Especially the various strategies and the "summed up" sections. I thought the book was very thorough. All of my students received high scores.

My daughter got this book to study before she took her ACT for the second time. Her first score was 18. After studying this book, her second score was a 24.
