James E. Duffy has written many of the top-selling automotive education textbooks on the market today. He is also a noted videographer who has produced over 100 vocational/technical video programs. He possesses a B.S. in industrial electronics and a B.S. in technology education from Indiana State University.

Ordered it for my sons school, Never used it as far as I know !!

I learned more from this book than the 15 months of hands-on Tech training and their book. The detail of nearly every detail expanded my ideas greatly. Turned out to be one of the best text books I've ever used. I tried talking the school into using this as the text book for the class, but they claim to have had a contract from a distributor.

I expected this book to help me with my auto repair job, but it exceeded my expectations! The textbook is so detailed and scientific that all my questions were answered. I would definitely recommend this book to anyone interested in auto repair be it professional or amateur.

Very well written and illustrated

Excellent book! full of valuable information on everything to do with autobody and collision.

Easy to read with great info. Detailed descriptions also with great photos.

Good book.

Great product.
