## Customer Reviews

I used this book to help tutor my nephew and I found it really helpful. It has a lot more explanations than some of the other books I looked at, and some really neat strategies.

This is a good book and is very helpful to students who want to practice and get stronger in the

verbal section. I would recommend this book to everyone who is studying for the SHSAT

Challenging for the students and helpful in putting them in the right direction

So-so for the scrambled paragraph section Very little logical reasoning questions Typical of other prep books, reading comprehension strategies weren't that helpful and overly broad/general. All in all, a tad too expensive for the amount of actual questions and substance.

Intense training! I feel much better prepared

Really good verbal practice. Definitely helped to supplement the other books.
