Customer Reviews

My eyes and heart are usually what draw me to a piece of furniture. I love antique fairs, estate sales, auctions and garage sales and I am always looking for special pieces to bring character and charm to the nest. I bought this book to help educate my eyes and heart and identify what they have fallen in love with. This book is full of information useful to that purpose - everything from identifying periods and styles to learning how to describe the different elements of a piece of furniture. The pricing part of the guide is interesting study. In my case my pocketbook sets price. I have already been able to put some of the information I found in the book to good use so I am happy to have this guide on my shelves.

Nice book. Helpful.

I feel this book has best information on history of antique furniture available at this time. For

developing knowledge on the subject.

Was looking for more information on Victorian Oak. Was disappointed by the lack of content.

Very thorough, covers and gives examples of all types of furniture and styles and periods. filled with pictures and descriptions.

Fantastic

Prices on quality antique furniture change very rapidly but a very good beginners Bible. Tells you what to look for. Worth the money
