Gilbert Law Summaries On Antitrust

Synopsis

The topics included are common law restraints of trade, federal antitrust laws (including Sherman Act, Clayton Act, Federal Trade Commission Act, interstate commerce requirement, and antitrust remedies), and monopolization (including relevant market, purposeful act requirement, and attempts and conspiracy to monopolize). Also included are collaboration among competitors (including horizontal restraints, division of markets, and group boycotts), vertical restraints, and mergers and acquisitions (including horizontal mergers, brown shoe analysis, vertical mergers, and conglomerate mergers). Further topics addressed are price discrimination--Robinson-Patman Act, unfair methods of competition, patent laws and their antitrust implications, and exemptions from antitrust laws.

Customer Reviews

This is a good resource for learning the current state of antitrust law. It is best, however, for black letter concepts, and is much weaker when it comes to the historical perspective or grey areas. Using it as a supplement or outline is a good idea, but it is definitely not a complete primary source. Then again, most people don't expect Gilbert summaries to be complete treatises on the law! Overall, I would say I am thankful I bought this to help prepare for my general antitrust exam, but it did have holes in its information, especially when it came to antitrust history, and I had to go elsewhere for those details.

This commercial outline was great in some areas like horizontal mergers and very cursory in others.

There was no material on many of the exclusionary conduct topics we covered. Perhaps supplement this supplement with another supplement for a rounded and complete overview (or don't take this class--it was my least favorite in all of law school and I was an undergrad econ major).
