The Glorious Revolution

Synopsis

First published in 1983, John Miller's *Glorious Revolution* established itself as the standard introduction to the subject. It examines the dramatic events themselves and demonstrates the profound impact the Revolution had on subsequent British history. The Second Edition contains a fuller discussion of Scotland and Ireland, the growth of a fiscal-military state and the role of religion and the Revolution.

Customer Reviews

'A first-rate and highly sophisticated interpretation. The book deserves a long and successful career'. History Today

First published in 1983, John Miller's "*Glorious Revolution*" established itself as the standard introduction to the subject. It examines the dramatic events themselves and demonstrates the profound impact the Revolution had on subsequent British history. The Second Edition contains a fuller discussion of Scotland and Ireland, the growth of a fiscal-military state and the role of religion and the Revolution.

This is a fine introduction to the problems of 1688/89. The discussion of quite contentious issues is admirably judicious, and Miller is very sensitive to the long-term implications of the events he describes. In addition, Miller provides a very strong collection of supporting documents: while each of the "Seminar Series" includes some primary sources, this is one of the best collections in the

series. 1688 is a crucial event in political history, and Miller provides an excellent way to begin a study of the subject.

This is the best short introduction to England's 1688 revolution and the consequences that flowed from it. It is an updated version of an earlier edition, and it pays greater attention than its predecessor to the revolution in England's public finances that stemmed from 1688. It also has new material on Scotland and Ireland. The choice of original documents to accompany the text is excellent.
