Kathy Sheldon is the author of many books, including Shrink! Shrank! Shrunk! and Making Shrink Plastic Jewelry, and the coauthor of Fa la la la Felt, Heart-Felt Holidays, and Aimee Ray's Sweet & Simple Jewelry (all from Lark). When Kathy is not writing or creating in the mountains of Asheville, NC, you can usually find her at her cottage in Maine. Amanda Carestio is the author of Never Been Stitched, Wee Felt Worlds, and Stash Happy, and (with Kathy Sheldon) coauthor of Fa la la la Felt, Felt-o-ween, and Heart-Felt Holidays, all published by Lark Crafts. She lives in Asheville, NC.

I've yet to make any of the items in the book, but I've flipped through it several times and the directions seem very clear and easy-to-follow. I love that all of the patterns are in the very back, so I

can take them to a copy store and have them enlarged to make templates. I don't have too much experience sewing, and while some of the projects involve sewing, there is a special section that shows you how to make the stitches and Ms. Sheldon also suggests using seam glue (in a way that doesn't make you feel inferior because of your sewing skills!). While some of the projects seem rather involved, there are several that are pretty simple or could be adjusted to make them easier for children (I would think first grade and up) to help with. I love this so much, I plan to look for more books by this author!

So many great patterns from designers I admire. I only wish the patterns were full size as I don't have access to a copier. I still rate a 5 stars though because it is a great book. I have all the books in this series now. I do lots of felt.

I bought this for my crafty mother for Christmas, who recently received a fully decked out, remodeled craft room from my dad for her birthday. It just so happened that she'd recently bought a boatload of felt on sale right before I gave her the book. Wow!

I love crafts and the book was just what I was looking for.

Excellent transaction: quick, easy, very pleasant, great book Thanks again!

Fantastic book with fun projects!

I appreciated the new ideas I found.

This book is also amazing. Get it.
