Simplified Mathematics: A Book For High Schools And Colleges

Synopsis

This is a mathematics book which is suitable for students in high schools or secondary schools. It will also serve as a useful tool for students who are preparing for entrance examinations into colleges and universities. Students in the higher institutions taking 'lighter' courses in mathematics will also find this maths book useful, especially when there is need for improved mathematical foundation for such students. The step by step explanations presented in the worked examples are easy to study since care was taken to sufficiently explain salient points and mathematical ideas. Efforts have been made to achieve a complete and simplified explanation of every example given in this eBook. Many worked examples have been included in each topic in order to fully cover every complexity the topic might contain. Numerous exercises at the end of each chapter are intended to test students' understanding of the topic. Therefore students are thus presented with an effective means of self-assessment whereby they can determine their individual strengths and revision needs. The topics covered in this book include, linear equation and equations with fractions, simultaneous linear equations, number bases, standard forms and approximations, laws of indices, laws and theories of logarithms, modular arithmetic, change of subject of formulae and variation. These topics have covered some areas under linear algebra and numbers and numerations. Readers with mathematical mindsets will find these topics well simplified, thereby making mathematics more interesting. A constructive overview of this mathematics textbook will be highly appreciated from buyers so as to give an overview to others who intend to purchase a copy of this eBook, and also to be a form of advice for the author to use when revising the book.

Book Information

File Size: 4683 KB

Print Length: 81 pages

Simultaneous Device Usage: Unlimited

Publication Date: September 23, 2016

Sold by: Digital Services LLC

Language: English

ASIN: B01LYMB3EV

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled

Lending: Not Enabled

Enhanced Typesetting: Not Enabled
