I'm still using this book right now, planning my wedding in September 2016 on a budget and I can't believe how many amazing ideas I have already used. The previous rave reviews that I read were absolutely correct. One example of a great idea that I never even heard of but is gaining popularity is forgoing the expensive photo booth and setting up a selfie station! Have already made my own backdrop and used this past Halloween to buy props on clearance. Love this book!

I'm mid way thru this book but I'm already girl crushing on the author. Her sass and straight shooting (and NKOTB references) are right up my alley. So much helpful info, real advice from other readers and experts, and practical info for today's bride.

This book is recommended to all brides. Save your time and skip the other books. The author is so down to earth and funny with lots of great ideas. I loved this from beginning to end. Lots of excellent ideas!

BEST wedding purchase so far!!!

I bought this as a gift for an engaged friend and she loved it! She said the guide was helpful and very informative.

Bought for my daughter. It's proving helpful. She's trying to go easy on expense and the book helps to know where NOT to cut corners.

I am planning a wedding with 60ish days to plan. This book has saved me from being crazy. She is very down to earth and practical.

Loveeeeeee this book!! I read the whole thing within the first week of getting it. It has so many great ideas even though it is just the tip of the iceberg with wedding planning it is something I keep

coming back to for more ideas. Its so easy to go over your budget but read this book and it will make it a lot easier
