The Groom's Instruction Manual: How To Survive And Possibly Even Enjoy The Most Bewildering Ceremony Known To Man (Owner's And Instruction Manual)

Synopsis

At Last! A Comprehensive Guide to Good Grooming Â Gone are the days when you could sit back and let your fianc e plan the entire wedding. Today s grooms have countless tasks to perform, from hiring the entertainment and planning the rehearsal dinner to buying the wedding bands and comforting hysterical family members. Â Fortunately, The Groom s Instruction Manual is here to answer all of your most challenging questions: How do I handle feuding relatives? What should I look for in a good wedding photographer? Why does my fianc e seem stressed out all the time? Whatever your concerns, you ll find the answers here  courtesy of author and veteran groom Shandon Fowler.

Shandon Fowler had five hundred guests at his wedding--and if he can survive that, you've got nothing to worry about. He and his wife are happily married and live in Charleston, South Carolina.

Ordered this is a gift for my brother after his engagement. I doubt he did a cover-to-cover read, but I skimmed a good bit of it and was pleasantly surprised by the information offered. It addresses several topics that come up pre-engagement too, so this might make a good gift for a guy who's considering popping the question, or one who has already done so. For the proposal I remember it discussing everything from the 5 C's for diamond buying (but don't be a sucker guys, go unique!) to asking her dad for permission.. or not asking. Also, moving into the wedding planning stages it addressed things like how much and in what ways the guy should expect to participate in the planning, etc. If nothing else, it's a great jumping off point for first-timers to help make sure otherwise forgotten things are considered and hopefully discussed by the couple. Good gift! Especially for the guys who you're afraid might not think of everything on their own!

This book is like 10 years old. Honestly, not bad. BUT-Just read The Black Tux Groom's Guide and it blows this out of the water. And it was written THIS YEAR, better illos, better advice, and way funnier. Plus TBT's suits friggin' rock. Save your \$12 and get TBT's Groom's Guide.

I purchased two of these and two of the companion book "The Bride's Instruction Manual"; one set was for me and my fiancée, and the other set was a gift for my newly engaged friends. I bought them just for the silliness, but once I got flipping through it I was surprised by how good the advice actually is. I would highly recommend both this one and "The Bride's Instruction Manual" for offering good advice with a heavy dose of humor. I mean, what couple stressing over a wedding couldn't use a little laughter to lighten it up?

My fiancée kept asking how he could better help me plan our wedding, and I was having a hard time figuring out things I could have him help with. I can barely figure out what I'm supposed to handle! In any event, this book has been very helpful for him to keep track of what's going on, and even gives him the direction he needs so he can make very helpful suggestions and offer great opinions. The whole first section is on the engagement, which was already over by the time we needed the book. But overall it's a fun book for my future hubby to keep track and help out with the planning of our

wedding, and he actually uses it!

Excellent little book! Was purchased as a gift for an engagement party. The groom loved it....lots of great tips along with many humorous ones. If you are looking for a little something this is a perfect gift.

This was WAY more informative, in depth, and awesome than I thought it was going to be. I really does contain ACTUAL advice and usable information. I thought it was just going to be some neat but fun light hearted suggestions, but there is a TON of information in it. Gave it to my future brother in law for their bridal shower. Huge hit!

My son-in-law to be liked this! Very helpful

Absolutely hilarious book! Ordered as a gift, for a recently engaged friend. Simply read the back of the book and was eager to read more. Spent about an hour skimming through the book and was so in love that I purchased another copy! Definitely would recommend- good information with lots of humor! Wish I would have had something like this to reference when I was getting married.
