I'm Getting Married, Now What?: Finding Your Wedding Style/ Ceremony Know-how/ Honeymoon Adventures (Now What Series)

Synopsis

Make the most of the time between today and the big day by dividing it into manageable components. As you plan, consider things your mother probably hasn't told you, like Jack and Jill parties and registering online. Fill in checklists to help you find your wedding style, whether traditional, ethnic, special theme, your own production (or eloping). Charts and tips help you establish costs and budgeting. Then come planning the ceremony, with common-sense etiquette on whom to invite, selecting the wedding party, and resolving family tensions. Where to honeymoon? Look over the great list of suggestions together. You really can manage the announcements, engagement parties, rehearsal dinner, and the reception. Finally: Plan a peaceful, lovely wedding day, hour by hour.

This book was not worth the money I spent on it. I judged a book by its cover on this one, (or rather by flipping through and seeing pretty pictures) and judged incorrectly. I found this book to be lacking in the content department. It tries to cover a lot of topics, but in that respect, it only covers each topic for a few paragraphs, not going in to depth really on anything, and therefore not really being helpful for designing and planning a wedding. There were no helpful checklists or worksheets for planning, nor did it give the bride any idea about where to start planning! If you're looking for one book to solve all of your wedding information and/or planning needs, this is not the book. I recommend The Knot guides, and also any specific guide that will help you with the kind of

wedding you're planning to have (Catholic, Jewish, Destination, Ethnic, whatever). ...
