## Customer Reviews

If there is a product that can transform an individual with poor (or nonexistent) verbal skills to the point of understanding the entire passage and ruling out the wrong answers, this is the product to buy. I've been doing the exercises/passages in this book (including the ones online) for the past 3.5 weeks and I'm already seeing improvement. One caveat -- I wish they had more than 27 online practice passages.

This book is great...the advice is very clear and easy to implement...has helped me raise my reading score by 2 points, and I've only been studying the book for 3 days

Good prep, helps decipher weaknesses and solutions to them. It seems all the practice passages after each section are difficult levels which helps me zoom through the easy passages on tests.

Good Verbal practice passages. The strategies may not work for everyone but, it gives a good guideline for what to look out for on the MCAT

The book come with cover's corner severely damaged but its content still readable.

This book is not helpful. I would not recommend anyone to buy it.
