Love the Rach 2, but this is simply two pages of music. I was expecting something a little more ...

This is exactly as described and just what I wanted. No one can do it better than Rachmaninoff. ..

when stated the music sheet is miniature they weren't kidding. i was expecting 8 1/2 x 11 but the booklet was quite small and useless to me because of the size. i can't recommend it to others.

This is NOT a concerto. It is a folder printed on the inside, 2 pages of music in large print no less.. 2 pages of music is not a concerto, it's a rip off..I looked for something that told me how many pages it was, but couldn't find anything so took a chance. It's not worth sending back, but it was a waste of money because I will never even look at it.

Rachmaninoff is a must for an aspiring pianist. Especially, the second piano concerto which is one of his famous if not the most famous pieces. I would suggest going out and reading some background information on Rachmaninoff before trying to interpret the piece.
