Journey Of Faith, Journey Of The Universe: The Lectionary And The New Cosmology

Synopsis

One of the most surprising discoveries of our time is that the universe is an unfolding and highly creative story: a cosmogenesis. In *Journey of Faith, Journey of the Universe*, Br. Ivan Nicoletto reveals how very insightful the Scripture and its commentary tradition are to these deep and cosmic perspectives, thus surprising even seasoned Bible-hearers with fresh understanding. It will serve as rich nourishment to anyone involved in the ministry of preaching or who wants to explore the lectionary in a new way. The distinction of the book is Br. Ivan's capacity to speak with depth and originality on both the Scripture readings and the cosmic spirituality, in fact, to blend them usefully, insightfully. This selection of homilies offered on various Sundays and holy days of the three-year lectionary cycle offers fresh insights on the readings for the day to those who are also open to the challenge to theology and Scripture that comes from new cosmology.
