# The Kingdom: Arabia & The House Of Sa'ud

## **Synopsis**

[This is the Audiobook CASSETTE Library Edition in vinyl case.] [Read by Frederick Davidson] The Kingdom is the story of a country -- a country of astonishing contrasts, where routine computer printouts open with the words "In the name of God," where men who grew up in goat-hair tents now dominate the money markets of the world, and where murderers and adulterers are publicly executed in the street. By its own reckoning, this country is just entering the fifteenth century. The Kingdom is also the story of a family -- a family that has fought its way from poverty and obscurity into wealth and power the likes of which the world has never known, a family characterized by fierce loyalty among its members, ruthlessness toward its enemies, and dedication to one of the world's most severe and demanding creeds. The Kingdom is Saudi Arabia -- the only country in the world to bear the name of the family that rules it. --This text refers to an out of print or unavailable edition of this title.

## **Book Information**

## **Customer Reviews**

"[Lacey's] grasp of Saudi thinking and purposes is most intensely felt in the final, 1973-and-after, section -- where he is able to make sympathetically intelligible, even inescapable, everything from the oil boycott to the Saudis' nonconservation of their one valuable resource, from their tolerance of internal dissidence to their outrage at the TV-film Death of a Princess." --Kirkus Reviews "(Narrator) Frederick Davidson's well-paced, crisp, and forthright reading commands the listener's attention."

ROBERT LACEY is the coauthor of The Year 1000 and the author of such bestselling books as

Majesty, The Kingdom, and The Queen Mother's Century. He lives in London. --This text refers to an out of print or unavailable edition of this title.

Very well written, this story follows the life and times in Arabia of the founder of modern day Saudi Arabia and his sons from the early years of the 20th Century through the 1970's. The author pays close attention to the mind set of these Arab leaders that is essential to understanding the attitudes and motives of later Saudi rulers right up to current times. If you want to understand what drives the Saudi society and government today, you need to read this book to gain an understanding of the founding family.

Very informative! This book deserves more attention than it has received. Well written!

An absolute classic And perhaps required reading

Delivered as expected, on time, on price

Matches up well to what I learned about Saudi Arabia by working there in the 1990's, plus background info I was unaware of at the time. Exceptionally interesting.

brilliant sociological and moral summary of the people of Saudi Arabia. a must for anyone intending to go there.

Very knowledgeable read.

This book is a very readable history of Saudi Arabia. The scope of the research done by Robert Lacey is impressive.
