## **Customer Reviews**

This is a well written book that starts with explaining why Homemade Organic Skin and Body products are the way to go. This book includes the hows and whys of organic products and how easy they are to make. There are recipes for exfoliants, scrubs, lip scrubs, body butters and balms, lotions, soaps, massage oils, bath salts, hair masks and shampoos. You can even make your own deodorant using the authors recipes. This book is really helpful for the person new to making their own products and there are also a ton of good recipes for the experienced person.

Homemade Organic Skin and Body Care by Carmen has a great collection of DIY recipes for everyone. As we get older our body and skin become more important. I have already changed the way I eat and this is the next step in taking proper care of my skin. This book covers many areas of skin and body care (facial skin, hair, beauty, dental care, etc) and the author made it extremely simple to follow. I recommend this to anyone looking for a straight forward approach to skin care

I've often entertained the idea of DIY health and beauty techniques. However, honestly, I got pretty bored with it because they are EVERYWHERE ONLINE. I would pinterest ideas I wanted to try...never trying, they just became a collection of really great ideas. I never wanted to invest in a book, already done up for me....but....last night, my son was playing with my kindle and this morning I noticed we bought a book :-))In which, I don't regret. Yes, I'm one of those typical middle aged moms that allow their kids to do almost anything....but....not everything. We have a thirteen year old girl and a one year old boy.2.99 for a book that I've been interested in, but never decided to investigate to buy.....I'd say that was an investment.I went through the book this morning. I'm proud to own it. She makes it simple and sweet. And very thorough. My son chose well.Thank you kindly.I would certainly purchase again.

If you're breaking into using essential oils for your beauty regimen, this is a good place to start. Lots of tips along with detailed instructions on how to make the recipes. I would've liked to see a little more on why this, not that and potential options for substitution, but overall this book is pretty good. Recommended.

I enjoy making and using natural products for my personal care, housecleaning, pet care, gardening, well just everything I can. Being free, I didn't expect much, but this book is a keeper. It is full of reasonable recipes to make and use.

I LOVE this book. It is simple, straight to the point, and FULL of helpful information on how to easily make your own skin care products. This is the first book I read of Carmen Reeves and have read most of the others that are out. If you want good simple instructions and information, start here! Thank you Carmen!! :)

This book is fabulous! I'm reading it for the second time and am taking serious notes so I can make these products at home. I'm especially interested in home-made shampoos as I don't like putting all

those commercial chemicals on my scalp every day. As I shop for health & beauty items now, I definitely read the labels. If it has lots of words I can't pronounce, I put it right back on the shelf! Thanks, Carmen, for sharing these fabulous recipes and ideas with us!

Well written nice recipes TY 5 star
