Ultimate Proof Of Creation

Synopsis

It's a bold title: The Ultimate Proof of Creation. But is there such a thing? There are many books that contain seemingly powerful arguments for biblical creation. But is there an ultimate proof of creation? There is an argument for creation that is powerful, conclusive, and has no true rebuttal. As such, it is an irrefutable argument-an "ultimate proof" of the Christian worldview biblical creation. Master the method outlined in the following chapters, and you will be able to defend Christianity against all opposition. Learn how to apply the ultimate proof in dialogues with evolutionists, how to spot logical fallacies, and biblical examples of defending the faith. Discover the nature of scientific evidence and its proper role in the origins debate. An exceptional book for pastors, ministry leaders, seminary attendees, and students of religion and philosophy. This book is a complete guide to defending the Christian faith, emphasizing the defense of the Genesis account of creation, built on techniques that have been developed over many years and presentations. They are not difficult to apply when you learn how to do it properly. Ready to move beyond the circular arguments? It is time to get to the real heart of the issue and rationally resolve the origins debate. It is time to discover The Ultimate Proof of Creation.

Book Information

Paperback: 256 pages

Publisher: Master Books (May 29, 2009)

Language: English

Customer Reviews

"You will never think the same way again after reading this masterful book - and you will never dialogue with non-believers in the same way. You will gain a confidence in your faith that you probably have never experienced, and you will become much more emboldened in your Christian faith." --Ken Ham, President/CEO of Answers in Genesis, Creation Museum, Ark Encounter

Dr. Jason Lisle is the Director of Research and a featured speaker and writer for the Institute for Creation Research. He previously served as the Planetarium Director for the Creation Museum in KY. Dr. Lisle has also authored a number of books which include: Taking Back Astronomy, The Ultimate Proof of Creation, Old-Earth Creationism on Trial, and The Stargazer's Guide to the Night Sky. Dr. Jason Lisle holds bachelor of science degrees in physics and astronomy from Ohio Wesleyan University, as well as a master's and PhD in Astro-physics from the University of Colorado in Boulder. As a creation scientist Dr. Lisle effectively communicates a broad range of topics from in-depth presentations of distant starlight, Einstein's relativity, and problems with the big bang to topics from astronomy and general science to apologetics and dinosaurs.

Top-notch -- a must-read for all Christians, especially those who engage in apologetics... which will be everyone at some point. Presuppositional apologetics literally destroys any other faith, belief, or philosophical system and reveals their absurdity. Very helpful also are two big chapters on examples from actual letters than Dr. Lisle received, along with his masterful responses to their conjecture and bluster.

The book was very well written, and the topic is extremely relevant. As a street missionary, I deal with these Tylenol questions constantly, and the answers Dr. Lisle work well in responding to many people. I'm still going to need to work on expanding some responses, and dumbing down others (since the rational arguments given are sadly beyond many people, if they do not include more concrete examples), but in principle they are irrefutable. I highly recommend this book. Dan B.

This was a great book for helping someone learn how to use presuppositional apologetics. Great examples and explanations that helped sharpen my debate skills with athiests and agnostics.

Dr. Lisle gives many very cogent arguments for the case of Biblical Creation versus Cosmic Evolution. A great & useful read!

Dr. Lisle is an awesome writer/scientist/researcher, a solid Christian, and I highly recommend his writings. Great book!

amazing book!

Great book to help dispell the myth of Evolution and instill true science and truth.

well written with excellent examples. i recommend this book (dr. david p.)
