Customer Reviews

Music is nicely printed and easy to read. Guitar parts are written as standard music notation and as guitar tabs. Clarinet part is written above the guitar parts. The pieces aren't too hard or too easy. A nice compilation of pieces.

Thanks for this! My wife is a clarinet player and I play guitar. Please, please make more of these books for guitar and clarinet duets!

The duets in this book have great harmony and timing and has a nice variety of classical and other kinds of tunes. For beginning duets this book will provide several months of practice.

It has a very good repertoire, lots of familiar songs that you will like. Now here's the catch. Its easy music. You will not get all of the complex parts from the songs that you want. If you are a beginner, this is the right book for you. If you are an advanced player, think about it. Me and my sister are advanced players, but we liked this book for the selection of music it has. If the author decides to make an expert book, I am more likely to buy it.
