Phillip Peterson is a full-time, federally licensed firearms dealer with more than 25 years of experience in military firearms and collectibles. A certified master gunsmith, Peterson has been a featured columnist for Gun Digest the Magazine and is also the editor of Modern Gun Values, Gun

Digest Buyer's Guide to Tactical Rifles, and four previous editions of Standard Catalog of Military Firearms.

I like to buy the latest update of this book but skip an edition. The prices in this version didn't seem to change much at all for most of the 15 guns I checked on and own, mostly pistols. I know from auctions in the last 3 months at least in South Central Va that prices seem to be increasing on old military arms but vary wildly. Perhaps the prices are from late 2015 or early 2016 and certainly geography sure plays a role. One needs several books to really get an idea and checking final realized prizes at on-line auction sites. The color pictures in the book of rifles was very nice; hopefully in the future even more can be added including pistols. I did notice a Swiss Luger magazine dropped in value which I've also noticed has happened in on-line auctions. But just like "The Blue Book of Gun Values" I often find the prices don't agree very well with the values people around here will pay. Still it's a very useful reference.

The identification and price guide! Price is dependent on location but the identification is invaluable. The most used of my shelf of books on firearms.Buy it!

It's actually, a pretty nice Catalog. However, I don't feel that it is detailed enough, in some areas. I also, have some questions on pricing.

My husband wouldn't be without this! No one who is interested in military firearms should be without this book.

Best reference I've come across for military firearms and edged military weapons

Fast delivery and saved me about a third !

Excellent reference.

Pretty accurate!
