I was impresseed that this book is a study guide for all of the 2017 GED exams. I am using this book in my current GED class.

GED test 2017, 2016 and GED test premier 2017, They are the same. I have all 3 and there is no difference between them. Are very good books when you combine them with khan academy app videos.

Great item

Item came quickly and was in perfect condition. Overall smooth transaction and was happy with the purchase. The book itself is not all it was hoped to be. It does not prepare you properly for the tests despite being the 2017 edition. My husband studied using this book and completed all of the practice tests for the subject he was testing for. When he went to take the test he said it seemed he had studied for the wrong test based on the actual questions on the GED test itself. He did not feel adequately prepared using what this book offered him. I would suggest using this as a supplemental study guide at best, but look into additional study guides or information out there before actually testing.

Very good and really helps that there are a few practice tests to do

Great!

Pretty much the same book as the previous one I purchased, but still very good

You can't go wrong with Kaplan. I'm tutoring a friend to get their GED and it's a great investment
