W. Cleon Skousen is best remembered as a popular author, speaker and teacher who lectured in every state and province in North America, and in more than 60 countries world-wide. He was a student of history and a scholar of law, specializing in the principles of Freedom, the U.S. Constitution, economics, and ancient history and scriptures. He was invited to write a new constitution for Canada and the proposed United States of Latin America, and he published a model constitution that could be adopted by nations everywhere. He served in the FBI for 16 years, four years as Chief of Police in Salt Lake City, and ten years as a university professor. He was a prolific writer and produced three national best sellers, *The Naked Communist*, *The Naked Capitalist*, and *The Five Thousand Year Leap*. Eight of his books were used as college texts, and several were translated and published in other countries. Dr. Skousen was born in Canada, and returned to the U.S. with his family at age ten. He spent two years in Mexico, two years in England, graduated from San Bernardino College in California, and received his juris doctor degree from George Washington University Law School. He was admitted to practice law in the District of Columbia and before the District Court of Appeals and the U.S. Supreme Court. His seminars on the Constitution have been taught to several million across the U.S., and among his students were dozens of U.S. Senators and Representatives, two Supreme Court justices, and several candidates for President. He believed knowledge and understanding were key to maintaining a free country, and spent his entire adult life opening up complex issues for deeper understanding by students and audiences all around the world. Mr. Skousen and his wife, Jewel Pitcher of San Bernardino, California, are the parents of eight children, 50 grandchildren, and more than 120 great-grandchildren. --This text refers to an alternate Paperback edition.

Loved this book so much I bought copies for my co workers and my siblings. Its fascinating and thought provoking, just a really good read. I have highlighted and book marked pages in this book, which is something I rarely do, I was always taught not to write in books or mark on them, but this book truly impressed me. I usually donate or give most of my books to others, but this is one of

those books I like to reference to and so enjoy re reading. It explains so much about our country.

Really enjoyed this book. A local talk show radio host mentioned it on the radio so I hunted it down and got it. It gives insight into the behind the scenes activities surrounding the american revolution. I do recommend it to anyone who likes history.

Please, quit lying to ya self . . . This book is solid, upright, honest, truthful, humble, logical and reliable common sense insight into what has, did, is and will make the red, what and blue great again.

This book is outstanding. This absolutely should be a required read for every elected official at the state and federal level. This book conjures feelings of fear that our country is slipping yet at the same time builds confidence that it can correct itself if we subscribe to the principles developed by the founding fathers (and plainly described in this book). Despite our many problems , We live in such a great country and this book helps outline why this is so. Happy Independence Day

Awesome book -- highly recommended for our Constitutionally illiterate generation (myself included)!

Every America needs to read this book. Few understand the thinking that founded this nation and the Constitution. The Founding Fathers were amazing men!

This is an important book for any true student of history. You will learn not just what the founding fathers did but why and what their thinking was at the time. I bought it used and it arrived in like brand new condition.

Great book to learn more about the founding of the United States and how the USA really changed the world. I give this book to students heading off to the liberal bastions we call colleges.
