## Customer Reviews

I really like this book. Most of the music is beyond my skill level, but there are two or three pieces in there that are approachable from an intermediate level. I would recommend it to anyone interested in learning Spanish guitar. Studying this book will certainly develop your playing skills and introduce a lot of new musical concepts. You can find performances of most of the songs from this book on You Tube, and I recommend using the videos for references as the music is quite complex. The annotations are quite good in the book, and fingerings are provided for some of the trickier parts.

My daughter enjoyed it very much.

This is a great book. I've explored it a little. The pieces are amazing. There's hard work there waiting for me to put on.

give my parents , will purchase again. the best seller. arrive on time. Great product. Feels good in

the hand.

Bought this online last year. Somehow the author has managed to get the fingering so wrong for most of these tunes. For example the fast run towards the last part of Granada (specifically bars/sections 109-116) is impossible to play from this poor positioning. The tabs are inaccurate. Don't waste your money. You will get better versions as I have done from the free of charge online tab sites.

Es un autor que por aÃ±os ha demostrado ser uno de los exponentes de mÃ©todos para educaciÃ³n musical mÃ¡s exitosos y usados.
