Customer Reviews

Good for those who never embroidered before but doesn't teach how to do the stitches pictured on the cover.

Nice book but not enough examples.

The book includes all beginning embroidery stitches and met my expectations.

the book is probably 5 pages typed in word total, then printed in large font on small page size.
terrible pictures and instructions. total waste of money.

The Worst Book I have ever Bought. I am totally embarrassed I bought this book. It had nothing in it!!!!

Did not show how to do stitches. I would not buy, not worth the price nor time. Save yourself the time.

This is just classy... Brought some memories back to life ,when I started to read this guide for beginners. Basically it is for my daughter and I really want her to learn this skill from all the way from basics.
