Best Sellers Rank: #393,373 in Books (See Top 100 in Books) #226 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Embroidery

Customer Reviews

Originally published in hardcover by Hodder & Stoughton in 1989, this is a completely revised full-color edition of Thomas's 1934 classic, Dictionary of Embroidery Stitches. A comprehensive dictionary offering more than 400 stitches, this edition includes 100 new stitches, all described and pictured in full-color diagrams. Essential for public libraries and embroidery collections. Copyright 1998 Reed Business Information, Inc.

Jan Eaton's books include Creative Guide to Cross Stitch Embroidery and Around the World in Cross Stitch.

I have two embroidery books that I absolutely adore and this is one of them! I highly recommend this book to anyone just learning or seasoned. Really a nice book

You've provided me a lifetime of new tricks. Of course, at age 88 that lifetime may not be as long as somebut that lifetime is richer for this book. excellent quality - timely delivery.. Thank you!

excellent book and the explanation is clear. I understand every instruction on this book.

Good pictures and descriptions. Helpful in stitching.

I am a complete beginner and I found this book to be a bit more advanced than I wanted. I did get another book that was much better for beginners, but if you know your way around a hoop, I'm sure you'll be pleased! When I get my feet a bit more wet, I will look further into this book!

I own this book and I have bought several copies to gift others. This is one of the best books for embroidery stitches. There are many stitches - specifically the laid work stitches - that are difficult to find in other books. These are beautiful stitches and well worth the price of the book to have.

This is a really useful guide for reference, although I don't find the instructional pictures to be super helpful. For a brand new beginner, I would recommend a book with clearer pictures, but for someone who has mastered basic stitches and wants to figure out fancier ones, this is a good fit.

An interesting book. Looking forward to using it.
